

# SEINÄJOKI THERMAL BATTERY: CONSTRUCTION, SITE MANAGEMENT

## CUSTOMERS:

- SEINÄJOEN VOIMA OY
- EPV OY
- NOVOX OY

2020 - 2022

New 10 000m<sup>3</sup> thermal battery and boiler for district heating was constructed in Seinäjoki. The battery can store 400 MWh energy. The boiler's capacity is 40 MW.

Culmentor was responsible for the construction works of the project and provided site management services.
